Business Rules

LOCATION—Our mail, telegraph, express and freight address is St. Petersburg. We are right on the street-car line, at Thirty-sixth and Central avenue. Cars run every hour.

VISITORS—We take pleasure in showing our stock to visitors. Come out to see our place when in St. Petersburg.

AGENTS—We have no agents and have no connection with other nurseries.

CLUB ORDERS—Neighbors can club together to buy, and thus secure the advantage of reduced prices for larger quantities of plants.

TERMS—Cash with order. Remit by bank draft, post-office money order, express money order, currency by registered mail, or any sure way. Receipt will always be acknowledged.

METHODS OF SHIPPING—All orders are filled promptly. If not instructed, we ship as we think best for our customers, by mail, express or freight. With our perfect packing system, plants should arrive in good condition.

CLAIMS—If plants arrive in a damaged condition have the agent note facts on expense bill; or, if plants are lost, file claim with the transportation company for compensation. We will give every assistance in our power to locate plants or collect damages, but our responsibility necessarily ends when plants are delivered in good condition to the carrier.

RESPONSIBILITY—We make every effort to have all plants as per catalog, and guarantee them to be true; but, in case of error, it is mutually agreed that we shall be responsible to the purchaser only for the amount of the purchase price.

SHIPPING BY MAIL—All prices in our catalog are net and plants are sent charges collect; but where sent by mail 15 per-cent of cost price should be added to cover prepayment.

TIME FOR SHIPPING—All our plants are grown in pots and can be safely planted at any time, with the exception of a few trees and the hardy and half-hardy fruit trees and shrubs which must be field-grown, and should be set out only in winter, when dormant.

SUBSTITUTION—We desire to follow our customers' wishes in this respect, and find that they usually want us to substitute when necessary, hence we will substitute unless instructed otherwise.

ERRORS—If errors should by any chance occur, we will gladly make them good if notified within ten days after receipt of the plants.

Landscape Department

There has been a tremendous development in Florida in recent years, and in no one thing has more interest been shown than in the artistic planting of home grounds, with the double object of securing utility and beauty.

On account of this interest we have secured the services of a prominent Landscape Architect and offer his help to our customers at a very reasonable figure. The most important things in beautifying grounds are (1) the ability to design plantings that are beautiful and that fit the house to the grounds; (2) a thorough knowledge of the plant material most suitable to secure the effect decided on. In this department we are able to offer you service that is unequalled in Florida to-day.

Also, we have carefully selected our stock to offer just those plants that lend themselves best from the standpoint of hardiness and beauty to out-of-door planting.

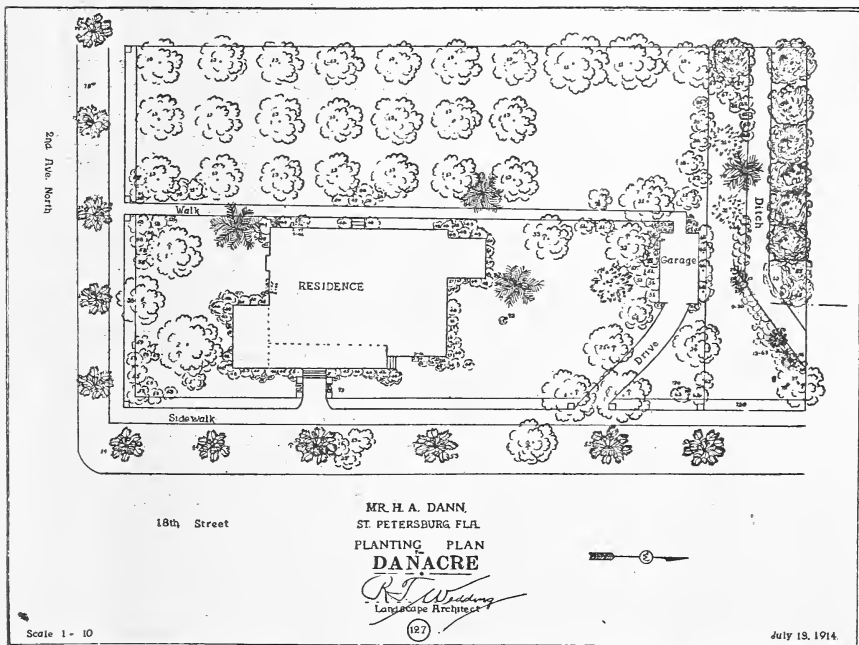

For the benefit of those who live in distant States or who do not wish to incur the expense of having our Landscape Architect inspect their grounds, we will furnish plans by mail. See instructions in full on our order blank herein. A plan for laying out grounds is a necessity, as a mistake made in the beginning often costs many times the expense of the planning, to say nothing of the annoyance and the valuable time lost.

We will make a plan showing how to plant your grounds in an artistic way if you will send us a rough sketch of the grounds, giving the location of buildings, walks, drives (if any), trees and shrubbery, or other things already established, and which it is not desired to remove. Also, the location of all entrances to lot and buildings, any objectionable or desirable views from the residence and the grades of any importance. A photograph will be valuable if you have one. This sketch need not be drawn to scale, but should give the width and depth of the lot, and other principal dimensions.

When this sketch is sent to us, remit \$5.00, for which we will give you a receipt immediately, and this receipt will be accepted by us as part payment on an order for plants amounting to not less than \$25.00. This is not a scheme to sell the sketch; but to protect us from curious persons who might send for a sketch with little or no intention of using it. These plans cost us more than \$5.00 in many cases.

They are not stock plans; they are specially worked out for your own grounds by a prominent Landscape Architect.

The above arrangement is only for lots of moderate size and cannot, of course, apply to extensive grounds where there is a great deal of work to be done. We are prepared to handle any landscape proposition whatever the size, and we solicit correspondence from any one desiring such work executed. We plan the smallest place as well as the most elaborate estate, public parks, schools, public buildings of all kinds. In fact, every kind of site that needs beautifying, whether in the Architectural or the Natural style of planting.

(One of Our Planting Plans; note how the plantings soften or hide the many angles in this problem

Planting Notes

Most of the Florida soils are acid and need treatment with lime before planting is done. The soil should be thoroughly plowed or dug, all roots removed, top soil mixed with well-rotted manure, placed in the hole, and humus added. Humus is necessary, and where no manure is available muck will do.

Plants should be taken out of the packing case as soon as possible, the roots wetted and set in a cool, shady place until wanted. Try to have everything ready for planting when the plants arrive. If plants are wilted stand in lukewarm water for half an hour and they will usually revive.

Plant about the depth the plants stood in the pot and firm the earth well around them. A mulch is a fine protection against the fervid sun of summer and also helps to hold moisture. NEVER STRAIGHTEN OUT THE ROOTS OF POT-GROWN PLANTS. This is sometimes done to the great detriment of the plants.

Plants from open ground have considerable damage done to the roots and are cut back and most of the foliage removed to prevent a too rapid evaporation of moisture until the new roots start. Never let plants lack water when first set out.

With some tender tropical plants a protection against sudden cold weather in some parts of Florida is necessary. This can be had by covering with paper, sacks, grass, leaves, etc., or by the various means of heating. In some cases it is well to cover the plant with cloth, a tent or to build a light, portable house over it, and put in a small oil heater.

A very frequent error is to be too sparing with the pruning knife. Most plants will do better if properly pruned, especially flowering shrubs. Some of them, in fact, will not make a symmetrical, compact growth unless they are trained. Also, winter bloom is the most desirable in Florida, and the greater portion of the winter-blooming shrubs will only bloom freely from the new wood and cutting back in late summer or early autumn must be practiced to insure this. Some shrubs are not healthy unless pruned.

Do not apply commercial fertilizer until certain that new roots have been produced, as this will sometimes kill young plants. If not sure how much commercial fertilizer to use, err on the side of giving too little. Many amateurs habitually give too much and defeat the object in fertilizing.

Remember that the plant must be fed if it is to thrive, so do not forget this important point. Much should be done in preparing the soil for planting; but they must be watched to keep them coming.

A careful attention to the above points will obviate many of the failures.

If we can assist you in any way with advice about your plants, please command us.

A Tropical Florida Shore Scene

Flowering Shrubs

ABELIA grandiflora. Flowers pink and small; almost everblooming. Dwarf habit.
30 and 40c each.

ACACIA podalyriaefolia. Something new in Florida. Flowers very large yellow balls,
intensely fragrant. Fine for cut flowers. Grows 10 to 15 ft. high. 50c each.

ACACIA farnesiana. (Opopanax.) Leaves very small, twice-pinnate, flowers yellow
and fragrant. Used in perfumery. 15c each.

ALLAMANDA cathartica hendersonii. (Golden Trumpet.) Flowers yellow, tubular.
20c each.

A. violacea. (Purple Allamanda.) Flowers purplish; something rare. Fine plants. \$1.

Flowering Shrubs—Continued

- ARDISIA pickeringii.** (Spiceberry.) Leaves shining; flowers panicles of lilac and pink, very fragrant. 20c each; \$1.75 per 10.
- BACCHARIS halimifolia.** (Groundsel Tree.) Covered in fall with a profuse white pappus. Likes marshy land near the sea. 20c each; \$1.75 per 10.
- CAESALPINIA pulcherrima.** (Dwarf Poinciana.) Flowers red and yellow; profuse bloomer. 15c each; \$1.25 per 10.
- C. pulcherrima var. flava.** (Yellow Dwarf Poinciana.) Flowers pure yellow. 15c each; \$1.25 per 10.
- CAMELLIA japonica.** (Camellia.) Flowers, white, red, pink or variegated. Leaves shining green. \$1.00 each.
- CESTRUM diurnum.** (Day-blooming Jessamine.) Flowers white, fragrant by day. 15c each; \$1.25 per 10.
- C. nocturnum.** (Night-blooming Jessamine.) Flowers white, fragrant by night. 15c each, \$1.25 per 10.
- C. parqui.** (Night-blooming Jessamine.) Flowers greenish-white, fragrant by night. 15c each; \$1.25 per 10.
- CHALCAS paniculata.** (Orange Jessamine.) Flowers like orange blossoms, free bloomer; slow grower. 10c each.
- CHILOPSIS linearis.** (Flowering Willow.) Flower tubular, white with pink lines. 25 and 50c each.
- COFFEA arabica.** (Commercial Coffee.) Flowers white, fragrant; tender. 40c each.
- CUPHEA micropetala.** (Cigarette Plant.) Flowers yellow and red; very numerous. 15c each.
- DAEDALACANTHUS nervosus.** (Eranthemum.) Flowers in winter, pure blue, plentiful. 10c each.
- DATURA suaveolens.** (Angel Trumpet.) Flowers tubular, white, pendent, fragrant. 20c each.
- DURANTA repens.** (Golden Dewdrop.) A fine hedge plant; flowers constantly; blue flower and yellow fruit which is persistent, making a splendid color scheme. Hardy. 15c each; \$1.25 per 10.
- EUPHORBIA pulcherrima.** (Poinsettia.) Bracts brilliant magenta; blooming in winter. 10 and 25c each.
- HIBISCUS mutabilis.** (Confederate Rose, Cotton Rose.) Flowers open white, changing to pink and finally to wine color. 15 and 25c each.

Hibiscus

- HIBISCUS rosa-sinensis.** (Chinese Rose):
- aurantiaca; flowers double orange. 15 and 20c.
 - carminatus-perfectus, rose with deep crimson eye, 6 inches across. 15 and 20c each.
 - colleril; double yellow, crimson base. 15 and 20c each.
 - Double Crimson, very rich blossom. 20c.
 - Double Scarlet; fine large flower. 15 and 25c each.
 - Double Pink; flowers large and rich. 20c.
 - Miniatus semi-plena; semi-double scarlet. 20 and 30c.
 - Peachblow; double peach pink. 10 and 20c each.
 - Single Dark Pink; scarlet center. 15c.
 - Single Salmon; salmon with deep pink heart. 10 and 20c.
 - Single Pink; a very strong grower. 20 and 40c.
 - Single Scarlet; one of the best. 10c.
- HYDRANGEA avalanche.** Flower large and white. 40c each.
- H. La Lorraine.** New. Flowers pale rose, changing to light pink. 40c each.
- H. otaksa monstrosa.** Flowers pink, changing to white. 20 and 40c each.
- H. ramus-pictus.** (Red-Branched.) 30c each.

Flowering Shrubs—Continued

- IXORA coccinea.** (Flame of the Woods.) Flowers scarlet, constant bloomer. 15c each. \$1.25 per 10.
- JACOBINEA coccinea.** (Brazilian Plume Plant.) Leaves large, green; flowers in red spike. 10 and 15c each.
- JASMINUM beesianum.** (Chinese Jessamine.) Flowers cherry red; the only red Jessamine. 50c each.
- JASMINUM gracillimum.** (Star Jessamine.) Flowers white, star shaped; scandent. 20c each.
- J. Grand Duke.** Flowers white, fragrant. 20c each.
- J. primulinum.** Flowers yellow; low climber. 20c.
- JUSTICIA carnea.** (Brazilian Plume Plant.) Flowers flesh-pink in dense spike. 20c.
- LAGERSTROEMIA flos-reginae.** (Queen Crape Myrtle.) Flowers large and royal purple; very rare. 50c each.
- L. indica.** (Crape Myrtle.) Flowers pink. 10, 20 and 30c.
- L. indica.** Flower white; a fine form. 30c.
- LANTANA alba perfecta.** Flowers white, with yellow heart. New. 15c each.
- L. mista.** Flowers yellow, changing to saffron, then orange. 10c each; 75c per 10.
- L. mutabilis.** Flowers light yellow, changing to rose-pink. 10c each; 75c per 10.
- LAWSONIA inermis.** (Camphire of Solomon, Henna Bush.) Flowers white, rose-scented. 20c.
- NERIUM oleander.** (Oleander.) Double pink. 20c.
- N. oleander, Madonna grandiflora;** flower double white. 20c.
- N. Savort.** Flower pale pink. 20c.
- N. Single pink.** 20c.
- PARKINSONIA aculeata.** (Jerusalem Thorn.) Flowers yellow; numerous; leaves long linear and pendent. Likes dry soil. 50c.
- PLUMBAGO capensis.** (Leadwort.) Flowers light blue, almost perpetual. Hardy. 20c.
- RUSSELLIA elegantissima.** (Coral Flower.) Flowers numerous, slender and bright coral pink; leaves very slender. 15c.
- SESBANIA punicea.** (Daubentonia.) Flowers large pea-like, rich orange red, in spring. 10c each; 75c per 10.
- STENOLOBIUM stans.** (Yellow Elder.) Flowers numerous, rich yellow; sweet-scented. 10c.
- STROBILANTHES anisophyllus.** Flowers light blue in early spring. 15c.
- S. isophyllus.** Flowers light purple. 15c.
- TABERNAEMONTANA coronaria.** (Rose Bay.) Leaves shining green; flowers white, crape-like, scented. 15c each; \$1.25 per 10.
- T. grandifolia.** Leaves larger than preceding; more robust habit; flowers larger, white. 15c each; \$1.25 per 10.
- THUNBERGIA erecta.** Flowers royal purple, with yellow throat; dwarf; very bushy. 10c each; 85c per 10
15c each; \$1.25 per 10
- VINCA rosea.** (Periwinkle.) Flowers pink, rose or white. Small; very hardy. 10c each; 50c per 10.

Roses

ROSA. (The Rose.) Grafted stock. 1 year, 25c; 2 year, 35c each.
B. Bengal, C. T. Climbing Tea; H. P. Hybrid Perpetual; T, tea.

Red Roses

AGRIPPINA, B. Crimson.
LOUIS PHILIPPE, B. Crimson.
REINE MARIE HENRIETTE, C. T. Cherry red.

Pink Roses

DEVONIENSIS, C. T. White, with light pink tints.
PAUL NEYRON, H. P. Pink.
PINK MAMAN COCHET, T. Pink.

White Roses

BRIDE, T. White, slightly pink-tinted.
FRAU KARL DRUSCHKI, H. P. White.
WHITE MAMAN COCHET, T.
WHITE PERLE DES JARDINS, T.

Yellow Roses

MARECHAL NIEL, Noisette. Climbing, yellow.
REVE d'Or, C. T. Salmon.
MCCARTNEY ROSE. Strong climber. 1 year, 15c; \$1.25 per 10. Flower white.

Foliage Plants

- ACALYPHA godseffiana.** Dwarf. Leaves green and yellow. 20c each.
- A. hispida.** (Chenille Plant). Long red spikes of flower; ever-blooming. 20 and 30c. ea.
- A. musaica.** (Copper Leaf.) Leaves green, yellow and red. 20 and 40c each.
- A. marginata.** (Copper Leaf.) Leaves green and red, white or pink-margined. 10 and 20c each.
- A. tricolor.** (Copper Leaf.) Leaves in three shades, chiefly red. 20 and 40c each.
- ASPARAGUS plumosus nanus.** (Asparagus Fern.) 15c each.
- A. sprengeri.** Fine for porch baskets. 20c each.
- COLEUS.** In assorted colors. Bedding plant. 10c; 50c per 10.
- GERANIUMS.** Assorted colors; flowers double and single. 10c each.
- GERANIUMS.** Rose scented. 10c each.
- HELICONIA lehmani variegata.** (Balisier, Wild Plantain.) Leaves large, variegated green and white. 40c each.
- HEMIGRAPHIS colorata.** Fine for baskets. 15c each.
- PHYLLANTHUS nivosus roseo-pictus.** (Snow Bush.) Leaves white, red and green. 15c each.
- PHYLLANTHUS nivosus var. atropurpureus.** Leaves green and purple. 15c each.

Crotons

PHYLLOUREA variegata—

- Andreanum,** 35 and 50c each.
- Bachii.** 15c each.
- Barryii.** 15c each.
- Beauty.** 15c each.
- Cooperi.** 35c each.
- Dayspring.** 35c each.
- Ingomar.** 15c each.
- Lady Zetland.** 15c each.
- Leone.** 15c each.
- Maculata-Katoni.** 15c each.
- Mortii.** 35c each.
- Ovalifolia.** 15c each.
- Picturatum.** 50c each.
- Queen Victoria.** 50c each.
- Reedii.** 15c each.
- Rex.** 15c each.
- Solamonia.** 15c each.
- Tortilis.** 35c each.
- Undulatum quercum.** 15c each.
- Veitchii.** 50c each.
- Williamsii.** 15c each.
- A Few Large Plants, assorted.** 75c each.

- PILEA muscosa.** (Artillery Plant.) Delicate. 10c; 75c per 10.
- PITTOSPORUM tobira.** Fine plant. 50c each; \$4 per 10.
- P. tobira variegata.** Leaves green and white. 50c each; \$4.00 per 10.
- TELANTHERA amoena.** (Alternanthera.) Leaves green, blotched with red and orange, fine bedding plant. 25c per 10.
- TELANTHERA aurea nana compacta.** Leaves golden. 25c per 10.

Vines and Climbing Shrubs

- ALLAMANDA hendersonii.** (Golden Trumpet.) A fine scandent shrub. 20c.
- ANTIGONON leptopus.** (Pink Vine, Mountain Rose.) A thick, almost everblooming vine; flowers pink. 10c.; 75c per 10.
- BIGNONIA speciosa.** Flowers lavender; leaves an intensely dark, shining green. 15c.
- BIGNONIA unguis-cati.** A strong vine. 10c.
- BOUGAINVILLEA glabra sanderiana.** (Paper Flower.) Bracts light purple; very floriferous. 25c; \$2.00 per 10.
- CLEMATIS paniculata.** Fine vine with masses of white flowers. Hardy. 15c.
- CLERODENDRUM thompsonae.** Flowers brilliant red and white, climbing shrub. 20c.; \$1.75 per 10.
- HEDERA helix.** (English Ivy.) Hardy and fine. 25c; \$2.00 per 10.
- JASMINUM gracillimum.** (Star Jessamine.) High climber, with masses of white flowers. 20, 30 and 40c.
- J. Maid of Orleans.** Scandent shrub; flowers white and sweet scented. 15c; \$1.25 per 10.
- KRAUNHIA chinensis.** (Wistaria.) Masses of purple and blue flowers. 20c.; \$1.75 per 10.
- K. chinensis alba.** White form. 20c.; \$1.75 per 10.
- LANTANA sellowiana.** (Purple Trailing Lantana.) Delicate scandent shrub; almost perpetual blooming. Fine for baskets. 10c.; 85c per 10.
- MORMODICA charantia.** (Balsam Pear.) A climbing deciduous vine; flowers white; fruit a queer cucumber-like body, of rich orange, looking like a flower at a short distance. 10c.; 50c per 10.
- NINTOOA japonica.** (Hall's Honeysuckle.) Flowers white or cream; very fragrant, hardy and makes a dense mass. Splendid for arbors, fences, etc. 20c.; \$1.75 per 10.
- PASSIFLORA macrocarpa.** Small plants. 15c.
- PYROSTEGIA venusta.** (Flame Vine.) Flowers in profusion about the holidays. Leaves dark and evergreen. High climber. The best vine in Florida. 25c; \$2.00 per 10.
- RHYNCOSPERMUM jasminoides.** (Malay Jessamine.) Leaves very dark green, stiff; flowers white and fragrant. 20c.; \$1.75 per 10.
- SOLANUM seafortianum.** (Tomatillo.) Flowers blue and persistent; fruits red. Liked by birds. 10c each; 80c per 10.
- S. wendlandii.** Flowers large, blue; tender climber. 20c.

A Group of Native Florida Palms

Palms and Palm-like Plants

ACROCOMIA totai. (Groo-groo Palm.) A beautiful hardy palm. Trunk armed. 80c. each.

ARCHONTOPHOENIX alexandrae. Fine decorative palm. 40c, 80c and \$1.50 each.

CARLUDOVICA palmata. (Panama Hat Plant.) Palm-like, but has no trunk. 35c ea.

CARYOTA urens. (Fishtail Palm.) A few fine plants; decorative. \$2.00 each.

CHRYSALIDOCARPUS lutescens. (Areca.) Very fine indoor palm. 75c, \$1.50 and \$2.50 each.

COCOS alphonsei. Small and hardy. 50c each

C. bonnetii. Very hardy and rather dwarf. 20c each.

C. datil. 50c. each.

Palms and Palm-Like Plants—Continued

- C. eriospatha*. The hardiest cocos. 75c each.
- C. weddelliana*. A midget pot palm. 25 and 35c each.
- C. nucifera*. (Cocoanut Palm.) Sprouted. 25c each.
- C. plumosa*. (Plumed Cocos.) 2½ to 3 feet. Hardy and beautiful; fine street palm. 50c each; \$4.00 per 10. Ask for prices by hundred.
- CORDYLINE banksii**. New. 50c each.
- CYCAS revoluta**. (Sago Palm.) An old favorite. 50 and 75c each.
- DRACAENA indivisa**. (Dragon Tree.) Hardy. 20c each.
(Also known as *Cordyline australis*.)
- DRACAENA terminalis rosea**. Leaves rose and green; few fine specimens. \$2.50 each.
- HYDRIASTELE wendlandii**. Very fine palm for conservatory. 40c, \$1.50 and \$2 each.
- HYOPHORBE amaricaulis**. Tropical palm. 25c each; \$2.00 per 10.
- H. verschaffeltii**. Decorative. \$1.50 and \$2.00 each.
- LATANIA borbonica**. (Chinese Fan Palm.) Fine heavy stock; good street palm. \$1.50 each; \$12.00 per 10.
- OREODOXA regia**. (Royal Palm.) One of the finest. 15 and 40c each.
(Will do well near the water in Central and South Florida)
- PANDANUS utilis**. (Screw Pine.) Fine pot plant. 15 and 25c each.
- P. veitchii**. Leaves variegated, white, yellow and green; beautiful pot plant. 20 and 40c each.
- PHOENIX canariensis**. (Canary Island Date.) Immense trunk and very hardy. 15c ea.
- P. pumila**. (Date Palm.) Strong grower. 25 and 50c each.
- P. reclinata**. One of the best, forming an immense plummy clump, hardy. 75c and \$1.00.
- P. roebelenii**. A beautiful dwarf palm. Magnificent house palm. \$3.00 each.
- P. rupicola**. Habit like *reclinata*. 75c and \$2.00 each.
- P. rupicola x reclinata**. Beautiful palm; hardy. 25 and 40c each.
- PTYCHOSPERMA elegans**. (Seaforthia.) One of the best indoor palms. 75c, \$1.50 and \$2.50 each.
- P. mcarthurii**. Finer than *elegans*. \$1.25 each.
- ROSCHERIA melanochaetes**. Good palm; trunk armed. \$1.50 each.
- SABAL PALMETTO**. (Cabbage Palmetto.) A native fan palm of great hardiness. 15 and 20c each.
- THRINAX parviflora**. Splendid pot plant. 35c each.
- WASHINGTONIA filifera**. (Thread Palm.) Thrifty young stock. 10c each; 80c per 10.
- W. robusta**. (California Fan Palm.) The quickest growing *Washingtonia*. 10c each; 80c per 10.
- W. sonorae**. (California Fan Palm.) All fine street trees and hardy. 10c each; 80c per 10.

Bamboos and Grasses

BAMBUSA argentea. (Silver Bamboo.) Single canes, 15 and 25c.; clumps, \$4.00 each

B. argentea striata. (Silver-striped Bamboo.) 15 and 25c; clumps, \$4.00 each.

B. aurea. (Golden Bamboo.) Clumps, 35c each.

B. verticillata. New. Clumps. 35c each.

CAREX morrowii; a variegated grass. Very decorative pot plant. 15c; \$1.25 per 10.

CYPERUS papyrus. (Egyptian Paper Reed.) Likes water and rich soil. 20c.

PANICUM palmifolium. (Palm Grass.) A fine palm-like grass; likes rich moist soil. 20c.

STENOTAPHRUM glabrum. (St. Augustine Grass.) Root cuttings. One of the best lawn grasses for Florida. 80c per bushel.

Ferns and Fern-like Plants

ACHROSTICUM aureum. (Salt Water Fern.) 25c each.

ADIANTUM farleyense. 40c each.

ADIANTUM hybridum. (Maidenhair Fern.) 15 and 20c each.

ALSOPHILA australis. (Australian Tree Fern.) 75c each.

BLECHNUM serrulatum. (Likes wet ground.) 10 and 15c each.

CIBOTIUM barometz. (Lamb of Tartary.) A tree fern without a trunk and one of the very finest for the house border. A beautiful tender green, growing to 3½ feet. Hardy. 20c each; \$2.00 per 10.

NEPHROLEPIS bostoniensis. (Boston Fern.) 15c each.

N. cordata compacta. (For house border.) 10 and 20c each.

N. davalloides furcans. (Staghorn Fern.) 25, 50c and \$1.00 each.

N. exaltata. (Wild Sword Fern.) (Hardy.) 10 and 25c each.

N. Roosevelt. (Roosevelt Fern.) 20c each.

N. scholzell. (Plumed Scott Fern.) 20c each.

N. scotti. (Scott's Boston Fern.) 15 and 40c each.

POLYSTICHUM lonchitis. (Holly Fern.) 10c each.

P. lobatum. (Dish Fern.) 10 and 15c each.

PTERIS cretica albo-lineata. 10 and 15c each.

PTERIS marginata. (Giant Fern.) 25 and 50c each.

PTERIS mayii. (Good Dish Fern.) 10c each.

PTERIS wilsoni. (Good Dish Fern.) 10c each.

PTERIS wimsettii. (Good Dish Fern.) 10c each.

SELAGINELLA emmeliana. (Club Moss.) 15c each.

SELAGINELLA wildenowii. (Rainbow Moss.) 30c each.

Tropical Fruit Trees and Shrubs

The greatest portion of the following are tender to frost; but many of them will survive considerable cold if they are protected until they are large, and they will repay the extra care and trouble. They should have an excellent chance in Central and South Florida, especially where protected by the water.

- ACHRAS sapota.** (Sapodilla.) Fruit sweet and delicious; does especially well close to the sea. 15c each.
- ANACARDIUM occidentale.** (Cashew Nut, or Cashew Apple.) Nut edible. 20c each; \$1.75 per 10.
- ANNONA muricata.** (Sour Sop.) Fine sub-acid fruit, doing well near the coast. 15c each; \$1.25 per 10.
- ANNONA squamosa.** (Purple Sugar Apple.) Fine sweet fruit. 20c each.
- CARICA papaya.** (Pawpaw.) Melon-like fruit borne in the crown of the tree. 10c each; 85c per 10.
- CARYOPHYLLUS jambos.** (Rose Apple.) Fine shade tree; fruits rose-scented. 20c ea.
- CASIMIROA edulis.** (White Sapota.) Fruit sub-acid and delicious. 30c each.
- COCCOLOBIS uvifera.** (Sea Grape.) Fine, rather acid fruit; makes fine jelly. Leaf broad, red—petioled, beautiful; likes seashore situations. 20c each.
- CORDIA sebestena.** (Geiger Tree.) Flowers orange-scarlet; fruit edible; tender. 15c each; \$1.25 per 10.
- EUGENIA uniflora.** (Surinam Cherry.) A fine fruit, which makes delicious jelly and is very ornamental; evergreen. 10 and 20c each.
- MACADAMIA ternifolia.** (Queensland Nut.) Fruit edible. 40c. each.
- MANGIFERA indica.** (Mango.) Seedlings of mixed varieties. 20c each.
- MANGIFERA indica.** Grafted Mulgoba. A fine variety. \$1.20 each.
- MANGIFERA indica.** Singapur. Grafted. Splendid Indian type. \$1.20 each.
- M. indica.** Paheri. One of the best. \$1.20 each.
- MAMMEA americana.** (Mammee Apple.) Ready in April. A fine large sweet fruit. 40c each.
- MELIOCOCCUS bijugatus.** (Ginep. Spanish Lime.) A fine, dense tree; fruit varies from sweet to sub-acid; plum-like. 20c each; \$1.75 per 10.
- P. americana.** (Pollock.) This is a very early sort. Fruit green-skinned; very best quality. Ripens in autumn. Budded trees. \$1.60 each.
- P. americana.** (Trapp.) Matures late; fruit green, medium-sized, nearly round. Ripens from November to January. Budded trees. \$1.60 each.
- PERSEA americana.** (Avocado, Alligator Pear.) Mixed seedlings of Trapp and Pollock. 25c each.
- PSIDIUM guajava.** (Lemon Guava.) Fruit sour and fine for jelly. 10 and 15c each.
- P. pyrifera.** (Sweet Guava, Common Guava.) Fruit sweet and pear-shaped; smooth. 10 and 15c each.
- TERMINALIA catappa.** (Tropical Almond.) Nuts oily and edible. Not an almond; leaves deciduous, turning red and yellow in fall. 15c each; \$1.25 per 10.

Hardy and Half-hardy Fruit Trees and Shrubs

Grown specially for us and shipped direct from the field to the customer.

Cattley Guava

PSIDIUM cattleyanum. Shining green leaves and red, sub-acid fruits, making fine jelly; hardy. 25c each.

Figs

FICUS carica. One of the finest fruits of the South; needing either clay soil or well-shaded situation in sandy soil to do well. 1 to 2 ft. 15c; 2 to 3 ft. 20c; 3 to 4 ft. 25c.

We offer the following varieties at above prices: Brunswick, Celeste, Green Ischia, Magnolia and Smyrna.

Grapefruit

Citrus grandis: 1 to 2 ft. 50c; 2 to 3 ft. 60c; 3 to 4 ft. 80c; 4 to 5 ft. \$1.00; 5 to 7 ft. \$1.20.

This fine breakfast fruit is constantly growing in popularity and is a fine investment, whether for home use or for the market. We offer the following on either rough lemon, grapefruit or sour orange stock: Ellen, Marsh Seedless, Pernambuco.

Grapes

VITIS rotundifolia. 1 year, 15c; 2 year, 20c.

The Bunch Grapes do not flourish in South Florida; but the greatly improved varieties of Muscadine fully take their place. Every home should have a few kinds. We offer the following tried-out varieties: Flowers, James, Mish, Scuppernong and Thomas.

Japan Persimmon

DIOSPYROS kaki. 2 to 3 ft. 20c; 3 to 4 ft. 25c; 4 to 5 ft. 30c.

We all know the taste of the wild persimmon; but the giant fruits of the Japanese cultivated varieties are so superior that every one should have a tree.

At above prices we have: Hachiya, Hyakume, Okame, Tane-nashi, Yemon, Zengi. The new Chinese Persimmon Tamopan at the following prices: 2 to 3 ft. 75c;

Hardy and Half-Hardy Fruit Trees and Shrubs—Continued

Lemons

CITRUS limonia. Prices same as Grapefruit.

The possibilities of commercial lemon culture in Florida are just being recognized, and every home should have a couple of trees. They do well in Central and South Florida. We offer: **Genoa** and **Lamb**.

Limes

CITRUS aurantiifolia. Prices: 1 to 2 ft. 45c; 3 to 4 ft. 85c.

The lime has come to stay and where there is enough protection from the frost they should be grown. The shore and keys offer splendid locations for lime groves, and they are enormous bearers. We list: **Persian** and **Tahiti**.

Loquats

ERIOBOTRYA japonica. Splendid for jelly-making. Ready March 1st. 10c each; 85c per 10.

Mulberry

MORUS alba. 2 to 3 ft. 15c; 4 to 6 ft. 25c. Fine for pie-making or for chicken feed. Enormous bearers. We have: **Hicks**, **Stubbs** and **White**.

Musk Guava

FEIJOA sellowiana. 40c each.

This fine fruit is hardy to considerable frost and the fruit is highly scented, something like musk. The perfume lingers for days where the fruit has lain.

Oranges

CITRUS sinensis. Please specify stock wanted. We have them on rough lemon, sour orange and grapefruit. 1 to 2 ft. 35c; 2 to 3 ft. 45c; 3 to 4 ft. 55c; 4 to 5 ft. 80c; 5 to 7 ft. \$1.20. We offer: **Homosassa**, **Ruby**, **Washington Navel**, **Parson Brown** and **Tardiff**.

Peaches

AMYGDALUS persica. 2 to 3 ft. 15c; 3 to 4 ft. 18c; 4 to 6 ft. 25c.

These are selected peaches that will thrive in lower Florida, where the peaches of the north will die. They are derived chiefly from Chinese varieties.

We offer: **Angel**, **Bidwell's Early**, **Jewell** and **Hall's Yellow**.

Pears

PYRUS communis. 2 to 3 ft. 20c; 3 to 4 ft. 25c; 4 to 6 ft. 30c.

Pears do well where the conditions are made right and if properly selected. We offer the best of the proven kinds: **Garber**, **Keiffer**, **Le Conte** and **Magnolia**.

Pecans

HICORIA pecan. 2 to 3 ft. 75c; 3 to 4 ft. 85c.

The commercial possibilities of pecan growing are being recognized more and more, and they are valuable for home use as well. They bear heavily in St. Petersburg. We offer: **Stewart**, **Success** and **Van Deman**.

Plums

PRUNUS. 2 to 3 ft. 18c; 3 to 4 ft. 25c; 4 to 6 ft. 30c.

We offer a number of proven varieties: **Abundance**, **Burbank**, **Kelsey**, **McRae** and **Terrill**.

Pomegranates

PUNICA granatum. 1 to 2 ft. 25c; 2 to 3 ft. 30c.

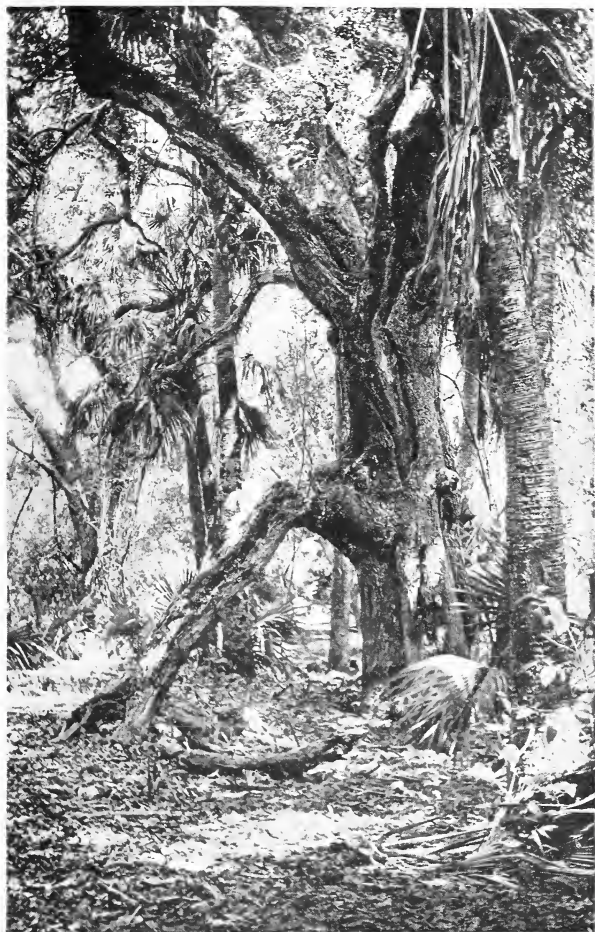

This fine fruit does well in Central and North Florida.

We offer: **Papershell**, **Rhoda** and **Wonderful**.

Tangelo

SAMPSON TANGELO. A fine medium-sized fruit, a hybrid of the Mandarin Orange and the Grapefruit. It is impossible to do justice to the qualities of this fruit. We call it the finest breakfast fruit known. Price same as oranges.

If any other varieties or kinds of Fruits are wanted, we shall be glad to furnish them at the regular Retail Prices asked by other Nurseries. Just tell us what you want and we will make every effort to get it.

An Ancient Oak

Shade and Street Trees

- ALBIZZIA lapantha.** Leaves pinnate, habit spreading. Good street tree. 35c each.
- BAUHINIA purpurea.** (Mountain Ebony.) Flowers orchid-like, purple and white. For streets. 20c each; \$1.75 per 10.
- B. triandra.** Flowers in winter. 15c each.
- BIXA orellana.** (Annato Plant.) Flowers pink. 15c each.
- BURSERA simaruba.** (Gumbo Limbo.) A fine tree peculiarly adapted to the coast. 20c.
- CAESALPINIA mexicana.** Flowers yellow; leaves pinnate. 25c.
- CINNAMOMUM camphora.** (Camphor Tree.) A fine street or shade tree. 15, 25 and 40c.
- C. cassia.** (Chinese Cinnamon.) One of the most beautiful trees; foliage dense, shining green; splendid lawn tree. 40c; \$3.50 per 10.
- DELRONIX regia.** (Royal Poinciana.) Leaves delicate, bipinnate, fern-like; flowers gorgeous in scarlet and yellow. 15 and 30c.
- ENTEROLOBIUM cyclocarpum.** Pinnate leaves and a quick grower. 50c.

Shade and Street Trees—Continued

Eucalypts

- EUCALYPTUS citriodora.** (Lemon Gum.) Lemon-scented leaves, used to perfume soap. 10 and 15c.
- E. ficifolia** (Crimson-flowered Eucalypt.) Flowers crimson; leaves like *Ficus*. 35c.
- E. globulus.** (Blue Gum.) Leaves bluish and clasping in the young growth; character leaves like *robusta*; 42 per cent of all trees planted in California. 10c; 85c per 10.
- E. robusta.** (Swamp Mahogany.) This is the most popular of the Eucalypts in Florida. It has a wide spread and grows very fast on both wet and dry soil. A splendid street tree. Ask for price in quantities. 5, 10, 15 and 20c.
- E. rostrata.** (Red Gum.) A fine timber tree and good for street planting if cut back at the top. 15 and 20c; \$1.00 and \$1.50 per 10.
- E. rudis.** (Flooded Gum.) Leaves broad in young growth; a quick grower and does well in most soils. 15c each; \$1.00 per 10
20c each; \$1.50 per 10
- E. viminalis.** (Manna Gum.) Slender-leaved variety; good timber tree and the most hardy of all. Will grow where citrus trees flourish. 5 and 10c.
- FICUS altissima.** (Tall Ficus.) A new variety of rubber tree which makes a very rapid growth. Fine for shade or street tree in protected localities. 50, 75c and \$1.00 each.
- F. aurea.** (Strangler Fig.) A native variety with rich leaves and parasitic habit; but makes a good street tree. (Ready January 1st.) 10c each.
- F. elastica.** (Indian Rubber Plant.) The old favorite for house and lawn, where it makes a very rapid growth. Fine for either shade or street. Stands considerable cold. 50c, 75c and \$1.00.
- F. infectoria.** Medium-sized leaves, quick grower and rather hardy; a few fine specimens. \$1.00 each.
- GREVILLEA robusta.** (Australian Silk Oak.) A fern-like tree, hardy in most of Florida; literally covered with yellow flowers in Spring. Fine street tree if pollarded. 15c each; \$1.25 per 10
20c each; \$1.60 per 10
- GUAIACUM officinale.** Splendid tree for locations near the sea. (Ready March 1st.) 20c; \$1.75 per 10
- HURA crepitans.** (Sandbox Tree.) Broad-leaved, tropical tree of moderate hardness. Recommended for street use; quick grower. 20c.
- ILEX dahoon.** (Dahoon Holly.) A fine hardy tree with shining leaves and persistent red berries. 40 and 50c.
- I. opaca.** (Southern Holly.) Shining prickly leaves and brilliant red berries. Used for Christmas decorations. Hardy. 40 and 50c.
- LAUROCERASUS caroliniana.** (Carolina Laurel Cherry.) Leaves thick, dark green and shining. Flowers white, fragrant; fruit black. Can be used for wild hedge or specimen tree. 10 and 15c.
- MAGNOLIA grandiflora.** (Bull Bay.) The famous Magnolia of the South. Flowers huge, pure white and very fragrant. Leaves immense, dark-green and shining. Likes good soil, either wet or dry. 40, 50, 75c and \$1.00 each.
- MIMOSA, sp.** Fine pinnate-leaved tree, of medium size; flowers white and plentiful in spring. 10c; 85c per 10. Deciduous.
- PITHECOLOBIUM dulce.** Fine small tree; likes the seashore. Should be used more. 30c.
- QUERCUS aquatica.** (Water Oak.) One of the best of the native trees. Has a broad, symmetrical head; grows rapidly, and is nearly evergreen. Splendid street tree and unequalled for shade. 2 to 3 ft. 35c; 3 to 4 ft. 45c; 4 to 6 ft. 50c; 6 to 8 ft. \$1.00. Ask for prices on large quantities.
- SWIETENIA mahogany.** (Mahogany Tree.) Fine pinnate-leaved tree; tender. 20c each; \$1.75 per 10.
- SYZYGIIUM smithii.** Flowers in winter. 75c each.
- TAMARINDUS indica.** (Tamarind Tree.) Splendid tree for seashore. Fruit edible and makes a fine acid drink. 15c each; \$1.25 per 10.

Conifers

BIOTA aurea nana. (Golden Dwarf Thuya.) Leaves golden-tipped; very small; very fine for small pot plant. 1 to 1½ ft. 40c each; 1½ to 2 ft. 50c each; 2 to 3 ft. 75c each.

CEDRUS deodara. (Indian Cedar.) Grows to large size; good street tree. 1 to 2 ft. 50c each; 2 to 3 ft. 75c each.

JUNIPERUS virginiana. (Native Red Cedar.) Hardy and beautiful native plant, which does well close to the seashore.
1 to 2 ft. 30c each; 2 to 3 ft. 40c each; 3 to 4 ft. 50c each.

THUYA orientalis compacta. 2 to 3 ft. 45c each; 3 to 4 ft. 85c each.

THUYA Rosedale. 1 to 1½ ft. 35c. each; 1½ to 2 ft. 45c each; 2 to 3 ft. 80c each.

Tuberous and Bulbous Plants

These plants like a good, rich muck soil, with plenty of water; but drainage must be good.

ALPINIA nutans. (Shell Flower.) Flowers red and white, orchid-like. 20c each.

Caladiums

A wide range of colors, mixed seedlings. With red or pink centers, 15c each; \$1.00 per 10. With white or flesh-colored ground, dotted with gray, 15c each; \$1.20 per 12. Also will procure any named variety wanted at regular prices.

Cannas

Fine blooming plants for bedding; like rich, moist soil, but thrive almost anywhere.

Mrs. Kate Gray. Flower orange and gold. 10c each; 75c per 10.

Italla. Flowers gold, yellow and orange. 10c each; 75c per 10.

Black Beauty. Flowers very dark red, foliage bronze, large grower. 15c each;

Marvel. Flowers red and yellow. A very strong grower 20c each; \$1.50 per 10.

Venus. Flowers rosy pink; fine. 20c each; \$1.50 per 10.

COLOCASIA species. (Dasheen.) The new food plant. 5c each; 40c per 10; \$3 per ½ bu.

CRINUM species. Flowers white. 20c each.

CRINUM sp. Flowers red. 10c each.

EUCHARIS amazonica. (Amazon Lily.) A splendid bloomer. 40c each.

HEDYCHIUM coronarium. (Ginger Lily.) Flowers white; very sweet-scented. 10c each; 75c per 10.

IRIS hexagona. (Blue Flag.) Grows in or near the water; flower blue, purple and yellow. 10c each; 75c per 10.

MUSA cavendishii. (Banana.) 10 and 20c each.

MUSA, Hart's Choice or Lady Finger. Hardy. 10 and 20c each.

MUSA. Orinoco. (Horse Banana.) Hardy. 10 and 20c each.

A FLORIDA JUNGLE

Succulent Plants

AGAVE americana variegata. Leaves variegated green and white or yellow. 20 and 40c each.

AGAVE sisalana. (Sisal Hemp.) Fibre plant. 5c each; 25c per 10.

OPUNTIA ficus-indica. (Indian Fig Cactus.) 20 and 30c each.

PEDILANTHUS tithymaloides. (Baby Shoe Cactus.) 10c each.

SANSEVIERA guineensis. (African Bowstring Hemp.) Leaves green, with irregular cross markings of white. 15c each.

TRADESCANTIA fluminensis. (Wandering Jew.) Leaves green. 5c each.

T. reginae. (Spiderwort.) Leaves purple beneath, silver and purple above. 5c each.

YUCCA aloifolia. (Spanish Bayonet.) 20c each.

YUCCA species. New; like Y. filamentosa. 20c each.
